"Sustainability is becoming a business imperative; doing nothing is no longer an option. It is about securing your business for the future."

PricewaterhouseCoopers

Demand... Demand for sustainable timber and paper in the UK has grown even faster.

 illegal logging

Every two seconds, somewhere on Earth an area of forest the size of a football pitch is clear-cut by illegal loggers.

Products of illegal timber trade can be found everywhere, from building sites to private homes.

Benefits of FSC certification

Top three opportunities:

1st: Increased supply of ethical material or products
2nd: Additional clients
3rd: Promotion of FSC labelled products

Meet the FSC

The world’s leading forest certification organisation
