Public notification letter

To: Interested parties
From: Global-Mark Pty Ltd
Subject: Evaluation of the ‘organisation’ to FSC-STD-40-005 V3-1 Requirements for Sourcing FSC Controlled Wood

‘Organisation’: Pentarch Forestry

Outline: As part of the evaluation to FSC-STD-40-005 V3-1 Requirements for Sourcing FSC Controlled Wood, Global-Mark seeks stakeholder participation. Please supply your comments by email to the contact listed below.

Assessment will be against FSC-STD-40-005 V3-1. A copy of the standard is available from: https://ic.fsc.org/en/certification/requirements-guidance/normative-framework/standards

The audit will take place at the organisation’s office in Eden. The organisation has not been previously certified to FSC-STD-40-005 so the scope of the audit is examining the system for sourcing FSC Controlled Wood.

The organisation is required to maintain a risk mitigation process, which must include stakeholder consultation and possible field verifications as control measures in relation to High Conservation Values related to the supply area.
Global-Mark will conduct an independent audit to assess conformity of the company’s risk assessment and verification program for wood sources supplied without a FSC claim, and to verify that stakeholder consultation has been undertaken. This may occur before, during and after the audit, and prior to our completion of the audit report.

Access to information that is to be publically available will be available from https://au.fsc.org. Fundamental to this will be the organisation’s Due Diligence System [DDS] summarised with other documents [risk assessment, public summary etc.] for stakeholders, available upon request.

We wish to inform all stakeholders that:

- Should you provide comments then we ask that you consent for their publication.
- However, we do provide you with the opportunity to comment in confidence.
- All comments provided will be evaluated objectively and meaningfully.
- We will respond with explanation within 30 days of the certification decision.

**For more information**: Should you require more information about FSC then please go to: www.fsc.org

Global-Mark Pty Ltd is accredited as a certification body to conduct FSC chain of custody certification. It is based in Sydney, Australia and its website is www.global-mark.com.au
